Funk Bros. Seed Co.

Bloomington, Illinois

1924 PRICE LIST

You cannot afford to plant inferior seed even if given you, when you consider the very low cost per acre of the best seed. Your work and investment must be backed up with high yielding seed if you expect any profit.

SEED CORN

Carefully Selected — Dried and Tested

Average Germination 90% to 95%

Tipped, Butted, Shelled and Graded Ready for the Planter

KIND OF SEED	Price Subject to Change After Mar. 1st
Funk's Yellow Dent — Strain 176 A .	\$5.00 Per Bushel
Funk's 90 Day	
Funk's Iowa Silvermine	
Early White (100 Day)	

Our stock of Leaming, Boone County White and Johnson County White is exhausted.

Read pages 8 and 9 of catalog, and especially the last paragraph on page 9.

Read page 7 for description of seed tested for vigor and freedom from disease.

Remarks

It is mutually agreed and understood that any seeds ordered of us may be returned at any time within ten days after receipt if not satisfactory and money paid for them will be refunded, but we do not, and cannot, in any way, warrant the crop, as it is dependent on so many conditions beyond our control.

MEASURE SEED PRICES BY QUALITY

You cannot with justice compare Funk's prices with prices of seed offered by a neighbor or inferior seed from any source because the two products are not alike.

We have thousands of acres in our farms to carry on breeding and test work. We have the most modern equipment obtainable to reclean, test and put in condition for market.

Buying cheap seed is bad business. A few cents per bushel makes a whale of a difference in the quality of the seed. This is why Funk's seeds in reality are lower in price.
